

## Communication Log

Date	Comment
18th February, 2025	Began requirements gathering and analysis for this iteration. Reviewed feedback from Iteration 1 to determine which use case descriptions and domain models needed revisions.
21st February, 2025	Finalized selection of two new fully dressed use case descriptions on the group chat . Started working on corresponding sequence diagrams, ensuring they traced only the 'happy paths.'
27th February, 2025	All of us met to discuss minor release, and how much we need to code to have a minor release. Also distributed some coding tasks amongst everyone.
1st March, 2025	Conducted a mid-week check-in to assess progress on assigned coding tasks. Identified minor roadblocks and discussed solutions to stay on track for the minor release.
5th March, 2025	Met to give feedback about the final drafts and ensured they were all good, and discuss the next iteration plan.
